“Increasing the Lower Limit of Autoregulation with Elevations in Cephalic Venous Pressure”

Derek M. Nusbaum, MD
Department of Medicine
Baylor College of Medicine
Houston, TX
May 17, 2012
Disclosure Information
84th Annual AsMA Scientific Meeting
Derek M. Nusbaum, M.D.

• I have no financial relationships to disclose.

• I will not discuss off-label use and/or investigational use in my presentation.
Brady et. al., 2009
Lee et. al., 2009
Methods

- Laser Doppler
- ICP
- NIRS
- EJP
- IJP
- Trach
- Balloon
- ABP
- Bleed for LLA
Center for Space Medicine

![Graph A: LLA (mmHg) vs. ICP (mmHg)](image1)

![Graph B: Box plots for Sham and High ICP groups with p < 0.0001](image2)

**Graph A:**
- LLA (mmHg) on the y-axis
- ICP (mmHg) on the x-axis
- Scatter plot with a linear trend line
- p < 0.0001

**Graph B:**
- Box plots for Sham and High ICP groups
- p < 0.0001
Special Thanks!
